

Advanced Climate Control & Filtration

## Products & Services

**Every time our doors open, Cayman gets a little greener**

ECO HOUSE is an advanced climate control and filtration company, which is 100% Caymanian owned by entrepreneur, ALEX DILBERT.

Eco House has been established for over 5 years and has a fully qualified team, who work by the traditional values of integrity, workmanship and care, of which Cayman Islands was based on.

**Our advantages over any other competitor are:**

### Samsung VRF System

Eco House is an official representative of Samsung HVAC, which continues to deliver on Samsung's legacy of product innovation and engineering excellence to provide the finest variable refrigerant flow (VRF) systems on the market today.

### Fully Stocked Warehouse

Eco House is housed in a 3,000 sq. ft. building, located off the Esterly Tibbett's highway and is fully stocked with Samsung parts and appliance, that comes with a warranty. With such resources and the labour, we can facilitate all of our customer needs.

### AC and Spray foam installation package deals

Eco House is the only company on Island that offers both - AC and Spray foam installation, **saving you up to 20% of the total cost**

### Proven track record

Our portfolio consists of successfully completed projects that comply with strict mechanical codes, including large commercial buildings such as Kimpton Hotel to small

### Price vs. Quality

Eco House position it self in the market as a company that provides the highest quality for the best price. We focus on providing the most reliable products and fully qualified technicians that help us create customer loyalty and satisfaction.

**Eco House serves both residential and commercial customers in the region.  
Samsung is our leading brand for all appliances, but we also serve other brands.**
